4. First aid measures

4.1. Description of first aid measures

Inhalation: Remove the polluted area and keep the patient at rest in open air. SEEK MEDICAL ADVICE.

Direct contact with the skin (of the pure product): Remove contaminated clothing and wash before reuse. Wash the parts that have been in contact with the product, even if only suspected, using soap and water. Do not use neutralizing substances and do not apply ointments before the 24 hours or without your doctor's. SEEK MEDICAL ADVICE.

RAPID DESCALER

Doc. SDS_CLP830_00-EN_GBC-DMC20-Rev.00_2016-10-14

Publication date 14/10/2016

#2/5

Direct contact with the eyes (of the pure product): Wash immediately and thoroughly for at least 15 minutes under running water with eyelids held open; then protect eyes with dry sterile gauze and resort to medical care. Do not use eye drops or ointment of any kind without specific prescription. **Ingestion:** IMMEDIATELY TO MEDICAL CARE. Do not induce vomiting and do not give anything without the control of health personnel. Keep the casualty rest in open air.

4.2. Most important symptoms and effects, both acute and delayed

The product is extremely destructive to mucous membranes of the upper respiratory tract, eyes and skin. Symptoms and signs of poisoning are: burning sensation, coughing, wheezing, laryngitis, shortness of breath, headache, nausea and vomiting. Inhalation may cause the following symptoms: spasm, inflammation and edema of the bronchi, spasm, inflammation and edema of the larynx. Aspiration or inhalation may cause chemical pneumonitis.

4.3. Indication of any immediate medical attention and special treatment needed

Refer to Section 4.1 Description of first aid measures.

5. Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: CO₂, chemical powder, alcohol-resistant foam.

Unsuitable extinguishing media: None in particular.

5.2. Special hazards arising from the substance or mixture

During combustion may develop potentially harmful fumes for health.

5.3. Advice for firefighters

Use protective clothing to respiratory system, eyes and skin. The water spray can be used to disperse the vapors and protect the people involved in the extinction. It is also recommended to use breathing apparatus, especially, if you operate in closed, poorly ventilated and in any case if you use halogenated extinguishing. Wear special protective equipment for fire team.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Move away from the area surrounding the spill or release. Not smoking.

For emergency responders: General Information: Use proper personal protective equipment as indicated in Section 8.

Precautionary measures targeted at people: Eliminate all sources of ignition (cigarettes, flames, sparks, etc.) or from the air in the occurred loss.

6.2. Environmental precautions

Limit leakages with earth or sand preventing from entering surface water and / or sewer. If the product has escaped into large amounts in a water course or has contaminated the ground or vegetation, notify the competent authorities.

6.3. Methods and material for containment and cleaning up

Recover the product for reuse or for disposal, taking care not to cause dust. After collection, wash with abundant water the area and materials involved.

6.4. Reference to other sections

Refer to paragraphs 8 and 13 for more information.

7. Handling and storage

7.1. Precautions for safe handling

Normal precautions for handling chemical products protecting against accidental contact. Do not smoke, eat or drink when handling. When handling do not cause dust.

7.2. Conditions for safe storage, including any incompatibilities

Store in original packaging in a cool, ventilated and protected from heat. Moisture sensitive.

7.3. Specific end use(s)

Data not available.

8. Exposure controls/personal protection

8.1. Control parameters

Substance: Citric acid anhydrous E330 / 2-hydroxypropane-1,2,3-tricarboxylic acid

PN	EC					
Fre	sh water = 0,44 (mg/l)	Sediments Fresh	water = 34,6 (mg/	/kg/Sediments)	Sea water = 0,044 (mg/l)	
Sec	liments Sea water = 3,46 (mg/kg/Sediments)	STP = 1000 (mg/l))		Soil = 33,1 (mg/kg Soil)	
Sul DN	ostance: sulphamic acid EL					
Lor	g-term systemic effects Inhalation Workers = 70,5	(mg/m ³)	Long-term syst	emic effects dermal V	Vorkers = 10 (mg/kg bw/day)	
Lor	g-term systemic effects Inhalation Consumer = 17	′,4 (mg/m³)	Long-term syst	emic effects Dermal	Consumer = 5 (mg/kg bw/day)	
Lor	g-term systemic effects Oral Consumers = 5 (mg/	kg bw/day)				
PN	EC					
Fre	sh water = 1,8 (mg/l) Sediments Fresh v	water = 8,36 (mg/kg/	/Sediments)	Intermittent emiss	ions = 0,48 (mg/l)	
Sea	a water = 0,18 (mg/l) Sediments Sea wa	ater = 0,84 (mg/kg/S	ediments)	STP = 20 (mg/l)	Soil = 5 (mg/kg Soil)	
	8.2. Exposure controls					
Ind	ividual protection measures, such as personal	protective equipm	ent			
a) b)	Eye/face protection: Use safety glasses with side Skin protection	e protection accordir	ng to EN-166			
	i) Hand protection: They recommend waterproof		•		•	

i) Hand protection: They recommend waterproof protective gloves according to EN 374-1, -2 and -3 (eg. Minimum thickness 0.3 nitrile - neoprene / natural minimum 0.55 thick latex). In relation to the time of contact use gloves with IP (Index of Permeation) suitable. Gloves must be inspected before being used. Using a suitable technique for the removal of the gloves (without touching the outer surface of the glove) to avoid skin contact with the contaminated outer surface of the glove.

c) ii) Other: Avoid direct skin contact by using appropriate protective clothing.

d) Respiratory protection: In the event of use in the vicinity of the parameters indicated in section 8.1, use of protective equipment for respiratory illnesses according to the UNI EN 529: 2006 (Respiratory protective devices - Recommendations for selection, use, care and maintenance - guidance Document) establishing the appropriate FPO value "Assigned protection factor."
 a) Thermal bazarde: Avoid exposure to even factor.

e) Thermal hazards: Avoid exposure to open flame.

Environmental exposure controls: Avoid reckless release to the environment

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties				
Physical and chemical properties	Value			
Appearance	White crystalline solid			
Odour	practically odorless			
Odour threshold	irrelevant			
рН	Not applicable			
Melting point/freezing point	~ 150°C			
Initial boiling point and boiling range	not available			
Flash point	irrelevant			
Evaporation rate	irrelevant			
Flammability (solid, gas)	>300°C			
Upper/lower flammability or explosive limits	not available			
Vapour pressure	not determined			
Vapour density	not determined			
Relative density	2,150 ± 0,050			
Idrosolubility	Soluble in water			
Partition coefficient: n-octanol/water	not determined			
Auto-ignition temperature	>1000°C			
Decomposition temperature	2,150 ± 0,050			
Viscosity	irrelevant			
Explosive properties	irrelevant			
Oxidising properties	irrelevant			

9.2. Other information

No further data available

10. Stability and reactivity

10.1. Reactivity

Under normal conditions of use are not known reactivity phenomena.

10.2. Chemical stability

Stable in normal use and storage conditions.

10.3. Possibility of hazardous reactions

None known under normal conditions of use.

10.4. Conditions to avoid

Do not mix with other chemicals in general.

10.5. Incompatible materials

Basic chemicals.

10.6. Hazardous decomposition products

Under normal conditions it does not decompose.

11. Toxicological information	<u>1</u>
11.1. Information of	n toxicological effects
ATE(mix) oral= not availablATE(mix) dermal= not availablATE(mix) inhal= not availabl	e

12. Ecological information

12.1. Toxicity

The product is harmful to aquatic organisms. Adopt good working practices, avoiding release of the product in the environment.

12.2. Persistence and degradability

It does not contain surfactants

12.3. Bioaccumulative potential

May cause long-term adverse effects in the aquatic environment.

12.4. Mobility in soil

Data not available.

12.5. Results of PBT and vPvB assessment

The substance / mixture NOT contain pursuant to Regulation PBT / vPvB (EC) No. 1907/2006, Annex XIII.

12.6. Other adverse effects

Data not available.

13. Disposal considerations

13.1. Waste treatment methods

Do not reuse empty containers. Dispose of in compliance with current regulations. Any remaining product can be burned in a suitable incinerator equipped with post-combustion and abatement.

14. Transport information

14.1. UN Number

2967

ADR any exemption (with application of the label shown at right) if it met the following characteristics: Combination packagings: inner packing 5 Kg package 30 Kg

Inner packaging placed in trays with shrink or extensible film: inner packing 5 Kg package 20 Kg

14.2. UN proper shipping name

SULPHAMIC ACID mixed

14.3. Hazard classes of transport

Transport hazard class(es)	: 8
Label	: 8
Tunnel restriction code	: E
Limited quantities	: 5 Kg
EmS	: F-A, S-B

Ш

14.5. Environmental hazards

Environmental hazards : NO Marine pollutant : NO

14.6. Special precautions for user

The goods must be transported by vehicles authorized to the carriage of dangerous goods according to the current provisions of the Agreement A.D.R. and the national provisions applicable. The goods must be in original packaging and in any case, in packagings made of materials resistant to their content and not likely to generate dangerous reactions. People loading and the unloading of dangerous goods must be trained on the risks from these substances and on all actions that must be taken in case of emergency situations

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

It is not intended to carry bulk

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC

REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006

COMMISSION REGULATION (EC) No 790/2009, of 10 August 2009 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures.

REGULATION (EC) No 648/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 on detergents. (satisfy the requirements of Articles 9, 11 and Annex VII).

15.2. Chemical safety assessment

Chemical safety assessment not provided.
