

CHEMICAL FLACER SRL

Edition n. 9

Edition date 06/04/2018

RINSE AID FLACER 500 ml

Printed on 06/04/2018

Pag n. 1/10

Safety Data Sheet

SECTION 1. Identification of the substance / mixture and of the company / undertaking

1.1. Product identifier

Code: BRILL01

Denomination RINSE AID FLACER 500ml

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description / Use : RINSE AID FOR DISHWASHER MACHINE

1.3. Information on the supplier of the safety data sheet

Company Name CHEMICAL FLACER SRL

Address Loc. Bellaria, 31 / a

Location and State 40036 Vado (BO)

italy

tel. 051/6778202

fax 051/5063724

e-mail address of the competent person,

responsible for the safety data sheet info@flacer.com

1.4. Emergency telephone number

For urgent information, call 051/6778202

SECTION 2. Hazards identification

2.1. Substance or mixture classification

The product is classified as dangerous according to the provisions of Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments). The product therefore requires a safety data sheet in compliance with the provisions of Regulation (EU) 2015/830. Any additional information regarding risks to health and / or the environment are reported in the sec. 11 and 12 of this sheet.

Classification and indications of danger:

Serious eye damage, category 1 H318 Causes serious eye damage.

2.2. Elements of the label

Danger labeling according to Regulation (EC) 1272/2008 (CLP) and subsequent amendments and adjustments.

Hazard pictograms:

Danger

Hazard statements:

H318 Causes serious eye damage.

Precautionary statements:

P101 If medical advice is needed, make available to the container or the label of the product

**CHEMICAL FLACER SRL**

Edition n. 9

Edition date 06/04/2018

Printed on 06/04/2018

Pag n. 2/10

RINSE AID FLACER 500 ml

P102 Keep out of reach of children.

P280 Protect your eyes and face.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER or physician.

Contains: Undecanol, branched and linear, ethoxylated, propoxylated

2.3. Other hazards.

Based on available data, the product does not contain PBT or vPvB substances in excess of 0.1%.

SECTION 3. Composition / information on ingredients.**3.1. Substances.**

Information not relevant.

3.2. Mixtures.

It contains:

Identificationm.	Conc. %.	Classification 1272/2008 (CLP).
------------------	----------	---------------------------------

CITRIC ACID MONOHYDRATE

CAS 5949-29-1	10 ≤ x < 15	Eye Irrit. 2 H319
CE 201-069-1		

INDEX -

Nr. Reg. 02-2119457026-42

Undecanol, branched and linear, ethoxylated, propoxylated

CAS -	3 ≤ x < 5	Eye Dam. 1 H318

INDEX -

Nr. Reg. 01-2119489411-37

The full text of the hazard statements (H) is given in section 16 of the sheet.

SECTION 4. First aid measures**4.1. Description of first aid measures**

EYES: Remove any contact lenses. Wash immediately and abundantly with water for at least 15 minutes, opening the eyelids well. Consult a doctor if the problem persists.

SKIN: Remove contaminated clothing from behind. Wash immediately and abundantly with water. If irritation persists, consult a doctor. Wash the contaminated garments before reusing them.

CHEMICAL FLACER SRL

Edition n. 9

Edition date 06/04/2018

Pag n. 3/10

RINSE AID FLACER 500 ml

INHALATION: Bring the subject to the open air. If breathing is difficult, call a doctor immediately.

INGESTION: Consult a doctor immediately. Induce vomiting only as directed by your doctor. Do not give anything by mouth if the subject is unconscious and if not authorized by the doctor.

4.2. Most important symptoms and effects, both acute and delayed

No specific information is known about the symptoms and effects caused by the product.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Fire fighting

SUITABLE EXTINGUISHING MEANS

The means of extinction are the traditional ones: carbon dioxide, foam, dust and nebulized water.

UNSUITABLE EXTINGUISHING MEDIA

No one in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS DUE TO EXPOSURE IN THE EVENT OF FIRE

Avoid breathing combustion products.

5.3. Recommendations for firefighters

GENERAL INFORMATIONS

Cool the containers with jets of water to avoid the decomposition of the product and the development of substances potentially dangerous for health. Always wear full fire protection equipment. Collect the extinguishing waters that must not be discharged into the drains. Dispose of contaminated water used for extinction and fire residue according to current regulations.

EQUIPMENT

Normal fire fighting clothing, such as open circuit compressed air breathing apparatus (EN 137), flame retardant (EN469), flame retardant gloves (EN 659) and fire brigade boots (HO A29 or A30).

SECTION 6. Measures in case of accidental release

6.1. Personal precautions, protective equipment and procedures in case of emergency

Block the loss if there is no danger.

Wear appropriate protective equipment (including personal protective equipment referred to in Section 8 of the safety data sheet) to prevent contamination of skin, eyes and personal clothing. These indications are valid both for workers to work and for emergency interventions.

6.2. Environmental precautions

Prevent the product from entering sewers, surface water or groundwater.

6.3. Methods and materials for containment and remediation

Aspirate the leaked product into a suitable container. If the product is flammable, use an explosion-proof device. Evaluate the compatibility of the container to be used with the product, checking section 10. Absorb the remainder with inert absorbent material.

Provide sufficient ventilation of the place affected by the leak. Disposal of contaminated material must be carried out in accordance with the provisions of section 13.

6.4. Reference to other sections

Any information regarding personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for Safe Handling

CHEMICAL FLACER SRL

Edition n. 9

Edition date 06/04/2018

Printed on 06/04/2018

Pag n. 4/10

RINSE AID FLACER 500 ml

Manipulate the product after having consulted all the other sections of this safety data sheet. Avoid dispersion of the product in the environment. Do not eat, drink or smoke during use. Remove contaminated clothing and protective equipment before accessing the areas where you eat.

7.2. Conditions for safe storage, including any incompatibilities

Keep only in the original container. Store closed containers in a well-ventilated area away from direct sunlight. Keep containers away from incompatible materials, checking section 10.

7.3. Specific end uses

Information not available

SECTION 8. Exposure controls / personal protection

8.1. Control parameters

Information not available

8.2. Exposure controls

Considering that the use of adequate technical measures should always take priority over personal protective equipment, ensure good ventilation in the workplace through effective local aspiration.

For the selection of personal protective equipment, if necessary ask your chemical suppliers for advice.

The individual protection devices must bear the CE marking which certifies their compliance with the regulations in force.

Provide emergency shower with visocular basin.

HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following must be considered for the final choice of the work glove material: compatibility, degradation, break time and permeation.

In the case of preparations, the resistance of work gloves to chemical agents must be checked before use as unpredictable. The gloves have a wear time that depends on the duration and the mode of use.

SKIN PROTECTION

Wear work clothes with long sleeves and safety footwear for professional use of category I (see Directive 89/686 / EEC and EN ISO 20344). Wash with soap and water after removing protective clothing.

PROTECTION OF EYES

It is advisable to wear tightly fitting goggles (see standard EN 166).

RESPIRATORY PROTECTION

If the threshold value (eg TLV-TWA) of the substance or one or more of the substances present in the product is exceeded, it is advisable to wear a mask with type B filter whose class (1, 2 or 3) must be chosen in relation to the limit concentration of use. (see standard EN 14387). If there are gases or vapors of a different nature and / or gases or vapors with particles (aerosols, fumes, mists, etc.), combined filters must be provided.

The use of means of protection of the respiratory tract is necessary if the technical measures adopted are not sufficient to limit the exposure of the worker to the threshold values taken into consideration. However, the protection offered by the masks is limited.

In the event that the substance considered is odorless or its olfactory threshold is higher than the relative TLV-TWA and in the event of an emergency, wear an open circuit compressed air breathing apparatus (see standard EN 137) or a breathing apparatus outdoor air (see standard EN 138). For the correct choice of the respiratory protection device, refer to the EN 529 standard.

ENVIRONMENTAL EXPOSURE CONTROLS

Emissions from production processes, including those from ventilation equipment, should be monitored for compliance with environmental protection legislation.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Liquid Physical State

Blue color

lemon Odor

Olfactory threshold Not available

pH 2.5

Melting or freezing point Not available

**RINSE AID FLACER 500 ml**

Initial boiling point Not available
Boiling range Not available
Flash point Not available
Evaporation rate Not available
Flammability of solids and gases Not available
Lower flammability limit Not available
Upper flammability limit Not available
Lower explosive limit Not available
Upper explosive limit Not available
Vapor pressure Not available
Vapor density Not available
Relative density 1.05
Solubility soluble in water
Partition coefficient: n-octanol / water: Not available
Auto-ignition temperature Not available
Decomposition temperature Not available
Viscosity Not available
Explosive properties Not available
Oxidising properties Not available

9.2. Other information

Information not available

SECTION 10. Stability and reactivity**10.1. Reactivity**

There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of dangerous reactions

Unusual reactions are not expected under normal use and storage conditions.

10.4. Conditions to avoid

None in particular. However, follow the usual precautions with regard to chemicals.

10.5. Incompatible materials

Information not available

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental toxicological data on the product itself, the possible dangers of the product for health have been evaluated on the basis of the properties of the substances contained, according to the criteria provided for by the reference standard for classification. Consider therefore the concentration of the individual hazardous substances mentioned in section 3, to evaluate the toxicological effects deriving from exposure to the product.

11.1. Information on toxicological effects

Metabolism, kinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

**RINSE AID FLACER 500 ml**

Information not available

Immediate, delayed, and chronic effects from short and long-term exposure

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

LC50 (Inhalation) of the mixture:

Not classified (no relevant component)

LD50 (Oral) of the mixture:

Not classified (no relevant component)

LD50 (Cutaneous) of the mixture:

Not classified (no relevant component)

CITRIC ACID MONOHYDRATE

LD50 (Oral) 5400 mg / kg mouse

LD50 (Cutaneous) > 2000 mg / kg

SODIUM CUMENSOLPHONATE

LD50 (Oral) > 7000 mg / kg mouse

LD50 (Cutaneous) > 2000 mg / kg

LONG ALCOHOL, ALCOHOLSYLATED ALCOHOL

LD50 (Oral) > 2000 mg / kg rat

SKIN CORROSION / CUTANEOUS IRRITATION

Does not meet the classification criteria for this hazard class

SERIOUS OCULAR DAMAGE / EYE IRRITATION

Causes serious eye irritation

RESPIRATORY OR CUTANEOUS SENSITIZATION

Does not meet the classification criteria for this hazard class

MUTAGENICITY ON GERMINAL CELLS

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

TOXICITY FOR REPRODUCTION

Does not meet the classification criteria for this hazard class

SPECIFIC TOXICITY FOR TARGET ORGANS (STOT) - SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

CHEMICAL FLACER SRL

Edition n. 9

Edition date 06/04/2018

RINSE AID FLACER 500 ml

Printed on 06/04/2018

Pag n. 7/10

SPECIFIC TOXICITY FOR TARGET ORGANS (STOT) - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

DANGER IN CASE OF ASPIRATION

Does not meet the classification criteria for this hazard class

SECTION 12. Ecological information

Use according to good working practices, avoiding to disperse the product in the environment. Notify the competent authorities if the product has reached watercourses or has contaminated the soil or vegetation.

12.1. Toxicity

SODIUM CUMENSOLPHONATE

LC50 - Fishes > 1000 mg / l / 96h

EC50 - Crustaceans > 1000 mg / l / 48h Daphnia

LONG ALCOHOL, ALCOHOLSYLATED ALCOHOL

LC50 - Fish 100 mg / l / 96h

EC50 - Crustaceans 100 mg / l / 48h

EC50 - Algae / Aquatic Plants 100 mg / l / 72h

12.2. Persistence and degradability

The surfactants contained in this formulation comply with the biodegradability criteria established by Regulation (EC) no. 648/2004 relating to detergents.

Surfactant information

Persistence / Biodegradation

Test method: OECD 301

Evaluation: easily biodegradable

Soluble in water.

12.3. Bioaccumulative potential

Information not available

12.4. Mobility in the soil

Information not available

12.5. Results of the PBT and vPvB assessment

Based on the available data, the product does not contain PBT or vPvB substances in percentages greater than 0.1%.

PBT substances: none

VPvB substances: none.

12.6. Other adverse effects

No one.

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Reuse, if possible. Product residues are to be considered hazardous special waste. The hazardousness of the waste that partially contains this product must be evaluated according to the laws in force.

Disposal must be entrusted to a company authorized to manage waste, in compliance with national and possibly local regulations.

CONTAMINATED PACKAGING

Contaminated packaging must be sent for recovery or disposal in accordance with national waste management regulations.

Recover if possible.

CHEMICAL FLACER SRL

Edition n. 9

Edition date 06/04/2018

Printed on 06/04/2018

RINSE AID FLACER 500 ml

For the disposal of the uncleaned / reclaimed product or containers addressed to companies expressly authorized to manage waste (recovery or disposal of hazardous waste).

Cleaned / reclaimed containers must be disposed of / recovered as special waste.

Never unload the product in surface or underground water.

Where applicable, refer to the following regulations: 91/156 / EEC, 91/689 / EEC, 94/62 / EC and subsequent adaptation.

SECTION 14. Transport information

The product is not considered dangerous according to the provisions in force concerning the transport of dangerous goods by road (A.D.R.), by rail (RID), by sea (IMDG Code) and by air (IATA).

14.1. UN number

Not applicable

14.2. UN shipping name

Not applicable

14.3. Danger classes related to transport

Not applicable

14.4. Packing group

Not applicable

14.5. Dangers for the environment

Not applicable

14.6. Special precautions for users

Not applicable

14.7. Transport in bulk according to Annex II of MARPOL and the IBC code

Information not applicable

SECTION 15. Regulatory information

15.1. Legislative and regulatory provisions on health, safety and environment specific to the substance or mixture

Seveso category - Directive 2012/18 / EC: None

Restrictions related to the product or to the substances contained according to Annex XVII Regulation (EC) 1907/2006

Product

RINSE AID FLACER 500 ml

Based on the available data, the product does not contain SVHC substances in percentages greater than 0.1%.

Substances subject to authorization (Annex XIV REACH)

None

Substances subject to export notification obligation Reg. (CE) 649/2012:

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

Sanitary checks

Workers exposed to this chemical agent dangerous to health must be subjected to health surveillance carried out according to the provisions of art. 41 of Legislative Decree 81 of 9 April 2008 unless the risk for the safety and health of the worker has been assessed as irrelevant, according to the provisions of art. 224 paragraph 2.

15.2. Evaluation of chemical safety

No chemical safety assessment has been made for the mixture and the substances it contains.

SECTION 16. Other information

Text of the hazard (H) indications mentioned in section 2-3 of the sheet:

Eye Dam. 1 Serious eye damage, category 1
Eye Irrit. 2 Eye irritation, category 2
Skin Irrit. 2 Skin irritation, category 2
H318 Causes serious eye damage.
H319 Causes serious eye irritation.
H315 Causes skin irritation.

LEGEND:

- ADR: European Agreement for the transport of dangerous goods by road
- CAS NUMBER: Chemical Abstract Service number
- EC50: Concentration that gives effect to 50% of the population subjected to tests
- CE NUMBER: ID number in ESIS (European archive of existing substances)
- CLP: EC Regulation 1272/2008
- DNEL: Derived level without effect
- EMS: Emergency Schedule
- GHS: Global harmonized system for the classification and labeling of chemicals
- IATA DGR: Regulations for the transport of dangerous goods of the International Air Transport Association
- IC50: Concentration of immobilization of 50% of the population subjected to tests
- IMDG: International Maritime Code for the transport of dangerous goods
- IMO: International Maritime Organization
- INDEX NUMBER: Identification number in Annex VI of the CLP
- LC50: Lethal concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational exposure level
- PBT: Persistent, bioaccumulative and toxic according to REACH
- PEC: Predictable environmental concentration
- PEL: Predictable level of exposure
- PNEC: Predictable concentration without effects
- REACH: EC Regulation 1907/2006
- RID: Regulations for the international transport of dangerous goods by train
- TLV: Threshold limit value
- TLV CEILING: Concentration that must not be exceeded during any moment of work exposure.
