

TYPE: S450

Manufacturer:

Purpose:

Deodorant for dishwasher

Ingredients/Identity Information:

Ingredients:	Perfumed substance whose detailed composition is confidential + Polymer packing
Hazardous ingredients:	See Analysis report

Technical data:

Shell composition:	Thermal moulded material, resistant up to 100°C Patented film
Shape:	Orange/Lemon
Colour:	Yellow for lemon – orange for grapefruit
Perfumes composition:	Flavours and compounds identical to natural ones Contains 6.7/7 ml perfume
Process:	Pre-moulding, flavour filling welding
Self-extinguish ability:	Flammable product, keep away from fire

Conformities:

Compliance to RoHS directives 2002/95/CE of 27/01/2003 and 2003/11/CE of 06/02/2003	Yes
---	-----

The perfuming substance is in accordance with the I.F.R.A. norms.
The formulation of this perfume is in accordance with the directive relative to the cleaning material that can be in contact of foodstuffs.

Composition/Information on Ingredients:

Substances present at a concentration below the minimum danger threshold:

INDEX	CAS	C E	Name	Symb.	R	Concentration
017	112-31-2	203-957-4	Aldéhyde C10	Xi	38	$\geq 0.00\% \leq 2.5\%$
156	68855-99-2	290-018-7	LITSEA CUBEBA ESS	Xi	38	$\geq 2.5\% \leq 10\%$

Analysis report:

Components	Lemon fragrance 11444	Grapefruit fragrance PE 46242 Fruity VI
Naturals		45,5%
Aldehydes	20%	5%
Esters	45%	36%
Alcohols	6%	4%
Musks		2,5%
Lactones		2%
Ethyl Cellulose	2%	
Essential oils	25%	
Others	2%	5%

Use:

Remove the film, do not perforate, keep the deodorant on the upper grill of the dishwasher, away from rotating vane.

Life:

It can't be exactly determined because it changes with the number of uses. However, in regular working conditions, the deodorant lasts for about n. 50 washings.

Precautions for Safe Handling and Use:

Skin:	Wash with water and soap
Eyes:	Flush eyes with copious amount of water for 15 minutes with eyelids held opened
Ingestion:	Rinse mouth with water. Consult doctor immediately
Inhalation:	Move person to fresh air, treat according to symptoms

Fire-fighting measures:

Extinguishing media:
Suitable: Foam: CO2, dry powder

Accidental release measures:

Spillage and leaks:
Provide adequate ventilation
Keep away from drains, surfaces and ground water and soil.
Avoid excessive inhalation in cases of a gross spillage and ensure exposure controls are observed

Handling and storage

Work hygiene: This material should only be handled in accordance with good manufacturing practice
Storage precautions: It is recommended to store product in a dry place

Exposure control/personal protection:

Personal precautions:
Respiratory protection: Not required in areas as well ventilated
Eye protection: Not required / Avoid contact
Hand protection: It is recommended to wear chemical products-proof gloves

Stability and reactivity:

Precautions corresponding to flash point and local regulations.
Avoid contact with strong acids, alkali and oxidising agents

Toxicological information:

From information obtained on the ingredients of this product, according to EEC Directive (88/379/EEC) and its amendments, this product is classified as: Unclassified
Total Fractional Values (TVF): None
Ingredients Declared: None
Ingredients Declared (with EH40 limits): None

Ecological Information:

This product is unlikely to accumulate in the environment. Under normal conditions of use environmental problems are not expected. (Reference IFRA Information Letter 337)

Further information:

The information contained herein are based on the present state of our knowledge is intended to describe the product from safety point of view and therefore should not be used for quality assurance purposes.

Your responsibility shouldn't be commit in a case of an abnormal use of this product.
